

Geoff Dodd

COACH AND FACILITATOR

Geoff has substantial strategic leadership experience that he uses to support individuals and teams to find solutions to critical issues. As an experienced coach and mentor, he supports individuals and organisations to develop, grow and achieve sustainable performance improvements

In his coaching and consultancy practice Geoff works with national and international clients across the private, public and voluntary sectors including the Home Office, Human Rights Watch, Boehringer Ingelheim, the National Probation Service, Health Education England, Serco, Dyson and others. His style is to focus on supporting the individual to grow in both their capacity and capability. Whilst his style is naturally supportive and empathetic, Geoff balances this approach by inspiring and challenging clients to reach their potential.

With an emphasis upon the development of the individual's personal and executive skills, Geoff is also able to focus on their personal resilience and well-being, enabling that individual to develop both professionally and personally. After coaching time with Geoff, clients report being more effective in role, happier and with a new-found confidence to take on more responsibility and complexity.

Geoff's enthusiasm to help others is matched only by his determination that there are few problems too great that cannot be resolved through commitment and collaboration.
